

# NAUFAL HANDI PRAMUDYA

Freelance Translator · English → Bahasa Indonesia

naufal.handipramudya@gmail.com | +62 822 8375 6383 | [LinkedIn](#)  
Indonesia · Available for Remote Projects Worldwide

## PROFESSIONAL SUMMARY

Freelance translator specializing in English to Bahasa Indonesia, with deep expertise in business research, market intelligence, and strategic survey localization for consulting firms, private equity, and investment research teams. Telecommunications Engineering graduate from Telkom University, combining technical discipline with advanced language skills. Having completed over 30 market research translation projects since 2024, I translate for meaning, methodology, and audience ensuring the Indonesian-language version performs as well as the original. Available for fast-turnaround, remote projects across seven industries.

## CORE COMPETENCIES

| Survey Localization & Market Research Translation   | Due Diligence & Investment Research Surveys | Business & Strategy Research Surveys    |
|-----------------------------------------------------|---------------------------------------------|-----------------------------------------|
| Pricing Research (Conjoint, MaxDiff, Gabor-Granger) | Tech & SaaS Localization                    | Fintech, E-commerce & Game Localization |
| XML-based Localization (XLIFF, TMX)                 | SDL Trados Studio & memoQ                   | Translation Memory (TM) Management      |

## PROFESSIONAL EXPERIENCE

### Freelance Translator – English → Bahasa Indonesia

January 2024 – Present

Self-Employed (Remote) · Worldwide

- Completed 30+ market research translation projects for global consulting firms, private equity houses, and investment research teams since 2024.
- Specializes in translating due diligence surveys, strategy surveys, pricing research instruments, and fund/investor surveys with full methodological equivalency.
- Handles technically complex pricing survey types including conjoint analysis (multi-attribute trade-off scenarios), max diff / best-worst scaling, and Gabor-Granger price sensitivity ladders, preserving measurement integrity across all question types.
- Manages XML-based localization files using memoQ and client-specific platforms, delivering XLIFF and TMX outputs compatible with industry-standard CAT tools.
- Maintains termbase and translation memory (TM) workflows to ensure consistent, research-grade terminology across projects.
- Consistently meets compressed consulting and investment research timelines without compromising linguistic or methodological accuracy.
- Produces natural, idiomatic Bahasa Indonesia that maximizes respondent engagement and improves survey data quality.
- Covers 7 industry verticals: Business Research · Fintech · Tech & SaaS · E-commerce · E-learning · Gaming · Tourism & Hospitality.  
Industry clients include: Technology, Healthcare, Consumer Goods, Retail, Financial Services, Industrials, Media & Telecom.

### Telecommunication Engineer Intern

July – August 2022

DISKOMINFO (Dinas Komunikasi dan Informatika) · Bandung, Indonesia

- Assisted in reviewing and documenting telecommunication tower data and related infrastructure records.
- Supported the monitoring of BTS (Base Transceiver Station) and telecommunications tower systems.
- Gained hands-on exposure to Fiber Optic tools and telecommunication network systems.

## EDUCATION

### Bachelor of Engineering (S.T.) – Telecommunications Engineering

August 2019 – November 2023

**Telkom University (TEL-U)** · Bandung, Indonesia

*Thesis: "Design and Implementation of Automatic Socket Control Utilizing IoT Technology and Telegram Bot in Temperature Monitoring and Notification System for Portable Water Ionizer"*

- CGPA: 3.49 / 4.00

## TRANSLATION SPECIALIZATIONS

### Business Research & Survey Localization (Primary Specialization)

*Consulting · Private Equity · Investment Research · Management Consulting*

- Due Diligence Surveys – market validation instruments for investors assessing Indonesian market opportunities, consumer behavior, and brand perception.
- Strategy Surveys – primary research surveys for senior executives and industry experts; formal yet accessible register for professional respondents.
- Pricing Research – conjoint analysis, max diff, and Gabor-Granger ladders; methodological equivalency preserved across all question types.
- Fund & Investor Research Surveys – conviction-building surveys covering consumer sentiment, brand awareness, market sizing, and behavioral data.

### Software, Apps & Tech Localization

*Tech & SaaS Platforms*

- UI strings, onboarding flows, in-app help docs, tooltips, push notifications, and release notes; terminology consistency across all user touchpoints.

### Financial Services & Fintech

*Digital Banking · Payment Apps · Lending · Crypto · Insurance Tech*

- Product documentation, app content, investor materials, regulatory disclosures, and onboarding flows; familiar with OJK compliance requirements.

### E-commerce & Retail

*Fashion · Electronics · FMCG · Marketplace Platforms (Tokopedia, Shopee)*

- Product listings, seller policy guides, customer service scripts, promotional copy, and return/refund policies; brand voice adapted for local consumers.

### E-learning & Education

*EdTech · Corporate L&D · K–12 · Professional Certification*

- Full online course curricula, LMS interfaces, instructor guides, quiz content, and corporate training materials.

### Game Localization

*Mobile · RPG & Strategy · Casual Games*

- Game dialogue, in-game UI, tutorial text, NPC scripts, and marketing copy; cultural resonance and natural character voice prioritized.

### Tourism & Hospitality

*Hotels · OTAs (Booking.com, Agoda) · Tour Operators · Airlines*

- Hotel and resort website content, guest communications, booking platform listings, travel guides, and destination marketing materials.
